BRECK'S BULBS & PLANTS AUTUMN 1902

66.54

IRISH TULIPS

No longer an experiment, but an assured success and already popular.

Unusual Size Variety of Form **Bright Colors**

....and....

Sweet Fragrance

together with their late season of flowering, make these the Tulip par excellence for grouping in mixed borders and in conspicuous places in the shrubbery, as well as for planting in beds, either alone or with the tall growing, double flowered, late blooming sorts.

FOUR EXTRA FINE SINGLE LATE TULIPS.

These four varieties come into bloom practically at the same time and are about one height, 18 inches. When planted together they make a bed that attains nearer to the "Ideal" than anything else. We hope all lovers of the beautiful will plant a mass of these

to crown the Spring garden of 1903.		05110

BOSTON PUBLIC GARDENS.

We continue to supply our customers the same quality and varieties of Tulips as used by Mr. Doogue in the Boston Public Gardens. And for the benefit of those who may wish to secure a similar effect another season,

we give, in part, Mr. Doogue's arrangements of kinds:
No. 1. Joost van Vondel, white, centre mass. Jo Joost van Vondel, cherry red, flaked with white, for

edging. No. 2.

No. 2. Rose Luisante, deep rose, centre mass. Stanley, rich claret, for edging.
No. 3. Couleur de Cardinal, rich bronze red, centre mass. Cottage Maid, pink and white, for edging.
No. 4. Proserpine, rich dark rose, centre mass. Royal Standard Gold Striped, scarlet, striped with yellow, for edging. Other specially beautiful sorts are:—Vermillion Brilliant, Prince of Austria, Thomas Moore, White Swan, Kaizerskroon and Standard Royal, all elsewhere described in this catalogue.

JAPANESE FERN BALLS.

This beautiful Japanese novelty has already become very popular. The centre is moss, covered in an ingenious manner with fern roots. To start into growth, place the ball in a pail of water until thoroughly wet through, hang in a window and water two or three times a week. After watering, growth begins in a few days, and the ball soon becomes a mass of beautiful, green, lace-like foliage. Large size, 7 to 9 inches diameter, 50 cts. each, net.

EXAMPLES.

- "The Bulbs sent me by you in the fall proved very satisfactory." MRS. GEORGE H. ELDRIDGE, Chevy Chase, Ind.
- "Please send me 500 Single Early Tulips. I had them from you in assorted colors last year and they re all right."

 F. A. CHIPMAN, Woonsocket, R. I. were all right.
 - "Bulbs received O. K., good stock, much pleased with appearance." CHARLES H. MILES, The Greenhouses, Rutland, Vt.

JOSEPH BRECK & SONS, Nos. 47 to 54 No. Market St. Boston, MASS.

DECORATIVE PLANTS FOR THE HOUSE. BEGONIA GLOIRE DE LORRAINE.

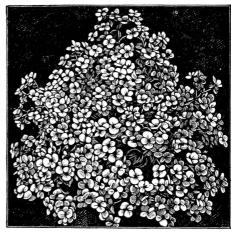

No flowering plant equals this for beauty and continuous bloom. Without special care it will flower throughout the entire winter and in such a profuse manner as almost to conceal the foliage with its wealth of salmon-rose colored blossoms.

We have had a large and very fine stock of this universal favorite grown especially for our trade. The plants are all thoroughly healthy and clean; all are of blooming size and will give good satisfaction. In 2½ inch pots, 25 cts. each; \$2.50 doz. In 4 inch pots, 35 cts. each; \$3.50 doz. In 6 inch pans, \$1.00 each, \$10.00 doz. VIOLETS.

Imperial, of vigorous growth each doz. 100 large deep blue, fragrant 1.50 10.00 blossoms.

Lady Hume Campbell. Very sweet, Color light violet . .15
Marie Louise. The favorite .10
Princess of Wales. Large,
Single Flowers. . . .10 1.50 10.00 8.00 1.00

ARECA LUTESCENS. (Ostrich Feather Palm.) A majestic palm. Its dark, glossygreen leaves are gracefully curved on slender stems. The trunk and stems are golden yellow, irregularly spotted with bronzy green. In $3\frac{1}{2}$ inch pots, 7; cts.; 5 inch pots, \$1.00; 6 inch pots, \$2.00; 7 inch pots, \$3.00 each.

Gloire de Lorraine.

KENTIA BELMOREANA. (Curly Palm.) Recognized as one of the best for all purposes, being able to withstand more illusage, perhaps, than any other. The foliage is dark glossy green, the segments wide and gracefully recurved. In 4 inch pot, 75 cts.; 5 inch pot, \$1.00; 6 inch pot, \$1.75; 7 inch pot, \$3.50 each.

COCOS WEDDELLIANA. The most slender and graceful of the upright feather-leaved palms. The leaves are very finely formed, and of great beauty. In 2½ inch pots, 30 cts.; 3 inch pots, 50 cts.; 31 inch pots, 70 cts. each.

LATANIA BORBONICA. (Fan Palm.) This is a typical palm and is more largely used than any other. It is of strong, healthy habit, and especially suitable for window culture. In 3½ inch pots, 50 cts.; 4 inch pots, 70 cts.; 5 inch pots, \$1.00; 6 inch pots, \$1.50; 7 inch pots, \$2.50 each.

PANDANUS UTILIS. (Screw Palm.) Very decorative and useful for the window garden. The large leaves in leaving the stem, form a continuous spiral. It is a native of the Hawaiian Islands where the natives use its fibre for making cloth. In 4 inch pots, 50 cts.; 6 inch pots, \$1.00; 7 inch pots, \$2.00 each.

CYCAS REVOLUTA. (Sago Palm.) A favorite for Conservatory, Window Garden and piazza decoration. It is of very odd and beautiful growth. In 6 inch pots, \$1.00; 7 inch pots, \$1.50; 8 inch pots, \$2.00.

DRACENA INDIVISA. Valuable as a window plant, also for

Kentia Belmoreana,

centres for baskets, vases, etc. 50 cts. to \$1.50 each.

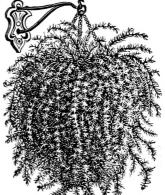

DRACENA TERMINALIS. A beautiful decorative plant, gorgeous shades of crimson, bronzy green, and pink foliage. 50 cts. to \$1.50 each.

ARAUCARIA EXCELSA. (Norfolk Island Pine.) The rich feathery, deep green branches of this charming conifer are arranged in whorls at regular distances on the stem. It is one of the most popular and beautiful foliage plants grown. In 5 inch pots, 2 tiers, \$1.00; 6 inch pots, 4 tiers, \$2.00 each.

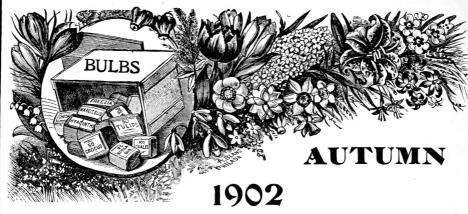

ASPARAGUS SPRENGERI. The beautiful green feathery sprays, which drop gracefully, are often 3 to 4 feet in length. Excellent for hanging pots. 25 cts. to \$1.00 each.

RUBBER PLANTS. Ficus Elestica. We can furnish nice, healthy plants of this favorite at from \$1.00 to \$5.00 each, according to size.

NEPHROLEPSIS EXALTATA BOSTONIENSIS. Boston
Fern. A very popular window plant. It bears well with heat, dust
and neglect, and always has a bright, fresh appearance. Strong plants, 50 cts. to \$2.00 each.

For the past few years, we have had so many inquiries and orders in early Spring for Dutch Bulbs, that we deem it necessary to call especial attention to the fact that if it is desired to have a display in the out door garden from March to May, the planting must be done in the Fall before the ground is frozen.

Snowdrops, Crocus, Scillas, Chionodoxa and Eranthes, either planted in beds, in

mixed borders, or in front of shrubbery, will bloom before the last snows disappear.

Hyacinths, either alone in beds, or alternated with Single Early Tulips, which, immediately succeed them in period of flowering, will bring the season of bloom down to the time when the Summer bedding should be set out.

Clumps of Narcissus; (we offer about 50 kinds); Iris, Spiræa, Lilies, and many other equally beautiful plants, are very suitable for planting in the Herbaceous border, and will provide flowers for cutting or adornment of the garden into the month of August.

Single Late or Florist's Tulips, Parrot Tulips and Late Flowering Double Tulips, are not nearly so well known as they deserve to be. Try a few; they will surprise you with their stately grandeur and brightness.

A better acquaintance with Winter and Spring flowering bulbs and their possibilities of beauty and fragrance, will create an increased interest in, and demand for them.

There is no class of plants that causes less disappointment or gives such great returns for the money and labor involved in growing them. They are unsurpassed for house cultivation during Winter, and are without a peer for decorating the garden in Spring.

The necessity of finding a market for the product of the greater acreage now produced in Holland and France has resulted in lower prices and improved quality.

This year, the weather conditions prevailing in these countries at the critical period of ripening the crops, were ideal, so that extra good results may be anticipated by planters.

Reports from Bermuda and the Azore Islands are to the effect that the Lilies and other bulbs grown there are superior in size and vigor to those sent us in recent years.

The Japanese Growers, owing to their stock being depleted by the great demand of last Autumn, are not in a position to ship as many large bulbs as formerly; yet there will be a fair proportion of the large sizes and all are expected to be of unusually good quality.

The Chinese Lilies we offer this year are the Genuine "Kum Yueng Fong Chop." This selection has not hitherto been exported from China, it being exclusively grown in the homes of the wealthier Chinese. They produce a greater abundance of larger

and sweeter flowers than the variety commonly offered.

Our importations of Bulbs are greater by far than any others entered at the port of Boston. Besides, our Bulbs are grown under contract, especially for our trade. They are the best the season produces, and not by any means the cheapest we could buy; nevertheless, our prices are the lowest. We urge the early placing of orders.

Notice: — While we exercise the greatest care to have all Seeds, Plants, Bulbs, and Nursery Stock, of the best kind, we do not give and our agents and employees are forbidden to give any warranty, express or implied. If you do not accept these goods on these terms, you must return them at once, and all payments therefor will be refunded. JOSEPH BRECK & SONS, (Corporation)

HYACINTHS.

The Hyacinth is the most popular, beautiful and fragrant of Holland bulbs. It is of almost every imaginable shade of color, and is suitable alike for house or garden culture.

Single Hyacinth.

Pot Culture. Plantings may be made at any time from September to December, though October is the best time. A light, rich soil with a mixture of well rotted cow manure, sand and leaf mould is most suitable, use a five-inch pot and have the top of the bulb just above the surface of the soil. After setting the bulb, thoroughly firm the soil and give a good watering. The pots should then be set away in a cool cellar or out-house and covered over with coal ashes or some litter, for a few weeks, until the roots begin to grow; they may then be brought as wanted for a succession of flowers into a moderately warm light room.

Culture in Glasses. When it is desired to grow Hyacinths in water, they should be placed so that the base of the bulb merely touches the water. The glasses should then be set in a cool, dark closet, or in the cellar, until nearly filled with roots, when they may be brought into the light. Change the water frequently. Give as much fresh air as possible without letting the plants stand in a draught. It is of importance in growing Hyacinths in the parlor, that the atmosphere in which the plants are growing be kept moist, and as nearly as possible at a temperature of from sixty-five to seventy degrees.

Outdoor Culture. The bulbs may be planted any time after the beginning of October and before the winter frosts set in. Any good, well drained garden soil will answer. Dig deep, and mix in a little decomposed manure; set the bulbs from three to four inches below the surface, and about six inches apart; after the ground becomes frozen, give a good covering of stable litter. In spring, about two weeks after the flowers have faded, the bulbs may be lifted, cleaned, packed in a box of dry sand and stored away in a cool place until wanted again for planting in the fall.

NAMED HYACINTHS.

BRECK'S HAND PICKED BULBS.

Are all of flowering age, thoroughly matured and the finest varieties in cultivation.

WE INVITE COMPARISON.

Note.—As the single Hyacinths give the most satisfactory results, we always send a larger proportion of single than double, unless specially ordered to the contrary.

Price for our selection of single and double sorts, all colors, splendid varieties, \$1.00 per doz.

CHOICE UNNAMED HYACINTHS.

Though without names, these are sound flowering bulbs of desirable varieties that attain about an equal height and bloom at the same time. They are likely to flower satisfactorily in either pots or beds and should not be confounded with the cheap mixtures frequently offered.

-		-	-	Each	Doz.	100	1					Each	Doz.	100

Hyacinthus (Muscari).

(GRAPE, MUSK, AND FEATHER MYACINTHS.)

A group of hardy plants suitable for growing in pots, borders, rockeries, etc., valuable for cutting in spring.

Botryoides (Grape Hyacinth.) Slender Doz. 100 spikes of blue flowers. \$0.08 \$0.40 Curious brownish yellow flowers,

strongly musk-scented; a pot of these will scent a whole house; it is hardy and easily grown \$0.15 \$1.00

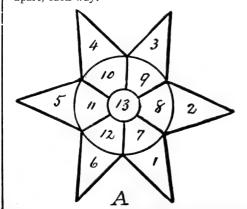

Hyacinthus Candicans.

A perfectly hardy, elegant border plant that grows to a height of four feet. The pure white, drooping flowers are borne on a central stem and are produced in July and August. Strong roots, each, 3 cts.; per doz., 25 cts.

A GLORIOUS BED OF TULIPS.

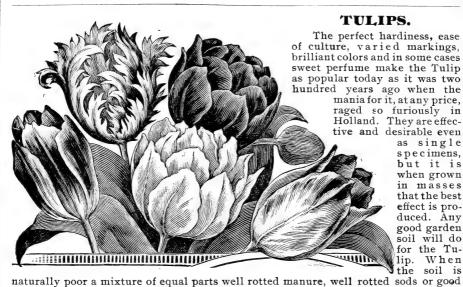

Design A.—A glorious effect is had by following either of the arrangements here indicated, viz.: (1) an 18-ft. Star Bed. (2) a 12-ft. Star Bed. (3) a 12-ft. Circular Bed. Set the bulbs 3½ inches deep and 6 inches

apart, each way.

loam or leaf mould may be applied. See that the drainage is good before planting, which should be done in October or November. Set the bulbs three and a half inches deep and five inches apart. A half inch of sand beneath the bulb is of essential benefit in preventing injury from excessive wet.

VAN THOL TULIPS are the earliest and especially adapted for pot culture. The best effect is obtained by planting from six to twelve bulbs in a large pot.

The varieties marked (†) bloom simultaneously about twelve days later than the VAN THOLS. This key will be useful in selecting for masses. Although nearly all the single early sorts will force to a certain extent, those marked (*) are the most suitable. The kinds that have an (Ex:) affixed are the finest for exhibition. The figures affixed indicate about the height in inches to which each variety grows.

Double Tulips.

The earlier varieties of this beautiful class of Tulips are admirably adapted for forcing. The latter kinds are very effective for bedding, producing a dense mass of brilliant colors which remain in perfection a long time.

Note.—The words "early, medium and late," indicates the time of flowering of the different sorts.

NARCISSUS OR DAFFODILS.

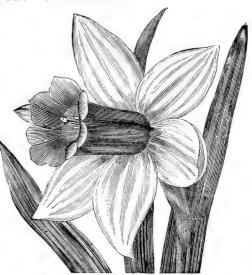

We have the most complete collection of Narcissus in America, and are in position to cater to the wants of the public better than any house in the country.

Outdoor Culture. The Daffodil will grow in any ordinary garden soil and in almost any situation, but prefers moderately stiff, well-drained soil, in situations slightly shaded, such as the herbaceous border and the margins of flower-beds, along the outside edges of shrubberies, on woodland walks and on the margins of lakes and streams, or for naturalizing in the grass or woodland. Planting may be done in the fall any time before the frost sets in, October being the usual month for doing this. Once planted they should not be disturbed further than dividing and resetting in August once in three or four years, when they get too crowded. The varieties marked "H" are hardy; those marked "HH" are hardy with a good covering of leaves or litter during winter; the kinds marked "T" are tender, and most suitable for growing indoors.

Pot Culture. It is unnecessary to say anything as to the merits of Narcissus of all kinds for this purpose, as their popularity is universal. At the head of the list

NARCISSUS. - Continued.

stands the Tazetta, or Polyanthus Narcissus, with its large bunches of fragrant flowers. The Paper White Grandistora and Double Roman Tazettas are very largely used for forcing. All the varieties of the group are suitable for this purpose, and most excellent for cut flowers. The Bulbocodium or Hoop Petticoat Daffodil, planted say 3 to 12 in a pot, is most unique and attractive, and the same may be said of the Cernuus or Nodding Daffodil. The Campernelle or Large Jonquil (N. Odorus), and the Single and Double Sweet-Scented Jonquils are splendid—the last-mentioned being exquisitely perfumed. Triandrus, the little Cyclamen Flowered Narcissus, is a perfect gem, one of the choicest things we offer. The Moschatus and other Spanish Daffodils are also worthy of special mention. For culture, the hints given under hyacinths may be followed. One very important point is to keep them cool for the first four or five weeks when they are com-

Narcissus Horsfieldi.

mencing to grow. After the roots are grown and the tops well started, they may be pushed forward more quickly in heat. In cutting for sending to friends or for market, the flowers should be cut in the bud, and when placed in water they will open out beautifully.

open out beautifully.

Chinese New Year's Lily,

CHINESE NEW YEAR'S LILY.

The Genuine KUM-YUENG-FONG-CHOP.

No care whatever is required in the cultivation of this beautiful and interesting bulbous plant. Use shallow dishes about three inches deep, into which put about one inch of gravel. Set the bulbs on this and fill in with small stones or pieces of marble to keep them upright, and keep the dish full of water. These bulbs do not require to be put in the dark, but a little shading until the leaves begin to grow is beneficial. A pinch of wood ashes now and again, and when changing the water putting a few drops of ammonia into it will largely ensure success. 10 cts. each; \$1.00 per doz.

LILIES.

Everything considered, there is no class of hardy flowering plants so desirable as the Lily family. Their cultivation is not difficult, nearly all of the varieties being hardy and flourishing in ordinary garden soil. We recommend deep planting, from six to twelve inches, according to the size of the bulb and depth of soil. When it is practicable to obtain peat, or leaf mould and sand in which to grow them, better

results will follow. Following are the usual dates at which we make delivery of the different

varieties of Lilies.

Harrisii, July 30; Longistorum (Bermuda grown), Candidum, Aug. 30; Tenui-folium, Wallacei, Pardalinum, Dalmaticum, Chalcedonicum, Canadense, Sept. 25; Auratums, Speciosums, Testaceum, Davuricums, Elegans, Atrosanguineum, Philadelphicum, Browni, Croceum, Martagon, Oct. 15; Concolor, Krameri, Parryi, Batemaniæ, Hansoni, Humbolti, Leichtlinii, Monadelphum, Nov. 15.

Pot Culture. The best compost to use is loam and peat in about equal parts, with the addition of a sprinkling of sharp sand and powdered charcoal. Select a large-sized pot, say an 8 or 10 inch, so as to allow of deep planting, a most essential matter where their are upper roots to be protected. Dust a little charcoal about the bulb to keep it fresh, and cover at least two inches with soil. Water lightly until the shoot begins to appear; never apply liquid manure of any kind unless as a stimulant, when just about to flower. Among the varieties worthy of special mention for growing in pots, we would notice particularly, Auratum, Speciosum, Longiflorum, Harrisii, Tenuifolium and Candidum. Other excellent sorts for pots are Browni, Krameri, Chalcedonicum, Batemaniæ, Wal-

lacei, Monadelphum, etc.

LILIUM HARRISII. (Easter Lily).

Pot bulbs as soon as received, using pots about twice the diameter of the bulb. If planted in August and pots set out doors with a covering of 4 to 6 inches of litter, they will be rooted and ready to bring into the house by October, where, if they are kept in a temperature of from 55° at night to 70° during the day, they will be in flower by Xmas. A succession of bloom is obtained by bringing into the house a supply as wanted, but bear in mind that Harrisii is not hardy, and requires protection if kept out doors after cold weather sets in.

				Each.	Doz.	100
First Size				\$0.08	\$0.85	\$6.00
Extra Size				.15	1.50	1 I .OO
Mammoth				.25	2.75	22.00

LILIUM LONGIFLORUM.

Produces fewer flowers but of better substance than Lilium Harrisii. It is grown in large quantities for Easter decoration, and requires the same treatment as that sort.

Sizes and Prices same as Lilium Harrisii.

Lilium Harrisii.

Lily of the Valley.

This favorite is perfectly hardy, and does well in any moderately moist soil. When forced, the roots must be firmly planted, and the crowns well covered with soil or moss at first. Berlin Single Crowns or Pips, per doz., 25; per 100, \$1.50 Clumps, imported, large and fine, each, .30; per doz., 3.50

Lily of the Valley.

GENERAL ALPHABETICAL LIST

.. of ..

BULBS AND ROOTS

Amaryllis Vallota Purpurea.

Those marked with a (*) ripen late, and cannot be sent out before the end of November.

AMARYLLIS.

BULBOUS plants with large, drooping, bell-shaped, lily-like flowers, varying in color from the richest crimson to pure white, striped with crimson or scarlet. The Vittata Hybrids are magnificent pot plants, thriving well in an ordinary parlor. They should be in every collection. None of them will stand the winter out of doors, but some of them may be planted out in May and will flower quite freely during the summer months. As pot plants for parlor and conservatory decoration during winter, they are probably unsurpassed by any other genus.

Bella Donna. (Bella Donna Lily.)	Each	Doz.

ARUM.

Very ornamental and interesting plants. Dracunculus. Dragon Arum. F brown, leaves resemble a small palm Each Doz. Flowers Italicum. Large, green leaves, veined with white .15 1.50 Black Calla. Sanctum. Sweet scented, about a foot in length and six inches broad, brilliant, dark purple color . 1.00

BABIANAS.

A group of dwarf growing plants, whose flowers range through all the various shades of blue and crimson. Admirably adapted to pot culture.

Finest Mixed. Three cents each, 20 cents per dozen, \$1.50 per 100.

BRODIÆA.

Half hardy bulbs, natives of California, especially suitable for pot culture. They bear clusters of long tubular flowers. Height, one to two feet.

Brodiæa Grandiflora. Bluish purple. Three cents each, 20 cents per dozen, \$2.00 per 100.

CALLA LILY. — Lily of the Nile.

The Calla, or Richardia Æthiopica, is a well-known plant of easy culture, and in winter is one of the best of our window plants. Each Doz. White Calla.

Nana. Little Gem. Similar to the above, but of much dwarfer habit. Richardia Æthiopica. Richardia Æthiopica Nana. 1.25

CALOCHORTUS.

California Butterfly Tulip or Mariposa Lily. This genus contains some of our gayest and most beautiful half-hardy bulbs. The flowers resemble a tulip somewhat in shape, and are of brilliant colors. They succeed well when grown in pots. Should be protected, in Northern states, if grown in open ground.

SUNDRIES.

Articles on this page subject to Special Offer No. 3 only.

Aphis Punk, Nikoteen. A special preparation of nicotine for the extermination of green and black fly, thrip, etc., contains no ammonia and does not injure delicate

plants. Per box of one dozen rolls (720 grains nicotine) 60 cts.

Canker Worm Exterminator. (Morrill's Tree Ink.) A sure protection to trees from the ravages of grub and canker worms. Directions with each can. 2-lb. cans, 30 cts.; 3-lb. cans, 45 cts.; 5-lb. cans, 60 cts.; 10-lb. cans, \$1.10; 20-lb. cans, \$2.00; 28-lb. cans, \$2.80; 125-lb. kegs, per lb., .09 cts.; 460-lb. barrels, per lb., .07 cts

Fir Tree Oil. Soluble. An invaluable preparation for destroying all insects and parasites that infest fruit trees, plants and animals, whether on foliage or at the

roots of the plants. Per gal., \$4.00; per qt., \$1.25; pt., .75 cts.; ½ pt., 50 cts.

Fir Tree Oil Soap. This article contains no poison, yet is quite effective in destroying red spider, mealy bug, aphis, etc. ½-lb. tin, 25 cts.; 2-lb. tins, 75 cts. A light powder that can be evenly applied with a bellows; destroys mil-

dew, black rot and rust. Per 5-lb. pkg., 60 cts.; 25-lb. box, \$2.50.

Tobacco Extract. Rose Leaf Brand. A perfectly pure, aqueous extract, highly concentrated and always uniform in strength of nicotine poison. Destroys green fly, mealy bug, red spider, and scale. Pts., 25 cts.; qts., 45 cts.; I gal., \$1.10; 5 gals., \$4.50.

Tobacco Stems. For fumigating. \$1.00 per bbl.; \$2.50 per bale. Sulpho-Tobacco Soap. (Patented). A superior insecticide and fertilizer. Non-injurious to the tenderest growth. Kills all insect life in the window-garden. Unsurpassed for rose bushes. For domestic purposes, it is valuable as an exterminator of moths, cockroaches, carpet bugs, and is a superior wash for dogs and all animals. Every insect will succumb to this Insecticide. Three

oz. cake, 10 cts.; 8 oz. cake, 20 cts.; 10 lb. can, \$3.00.

XL-All Liquid Insecticide. For syringing, spraying, dipping, or sponging. Destroys all insects, especially effective against mealy bug and red spider. Can be used without injury in graperies, even when the fruit is in an advanced stage of

growth. Pt., 65 cts.; qt., \$1.00.

XL-All Vaporizing Compound. This is an English preparation, that at the first glance has an high priced appearance. The safety with which it can be used, its never-failing effectiveness and the ease with which it can be applied as an insecticide, places it at the head of the first rank. It is cheaper, results considered, than any other vaporizing compound, and there is no other like it. Its action is positive on *Mealy Bug, Thrip*, and *all kinds of Aphis*. Price per bottle No. 1, \$8.00; No. 2, \$4.25; No. 3, \$2.25; No. 4, \$1.15. The smallest bottle is sufficient to fumigate 5,000 cubic feet.

Fumigators. With lamp for vaporizing: large, \$1.00; medium, 85 cts.

MATS, HOT BED.

Made in a first class manner from selected Rye Straw. The twine used is especially prepared for the purpose and is very durable. Size 6 x 6 ft., \$1.50; 3 x 3 ft., \$1.00. Special sizes made to order.

SCOTCH SOOT.

This is much used by florists and gardeners, both as a fertilizer and fungicide. Mixed with Flowers of Sulphur (two-thirds soot, one-third sulphur), there is nothing better to prevent and cure mildew. Used as a fertilizer, either in dry state or liquid, it quickly promotes growth, and heightens the color of both flower and foliage. Per 100 lb. bag, \$2.50; 25-lb. bag, \$1.00, net.

SHEEP MANURE.

This is a pure natural manure, and nutritious food for plants. Its effect is immediate. It is the best of all manures for mixing with the soil for greenhouse plants—one part manure and six parts soil. Price, in bags of 100 lbs. each, \$2.00; per ton, \$35.00. Sheep manure is net f. o. b. Boston.

BRECK'S VEGETABLE FIBRE,

A chemically prepared vegetable fibre, rich in plant food. Its peculiar character especially adapts it to induce root growth and cause healthy, vigorous plants. For potting bulbs use one-third Breck's Fibre to two-thirds of the usual soil preparation and you will be surprised at the results. Breck's Fibre is unsurpassed as a medium in which to sprout seeds. Price, 5 lbs., 30 cts.; 15 lbs., 50 cts.; 25 lbs., 75 cts.; 50 lbs., \$1.00; 100 lbs., \$1.50.

Special offer No. 3 only applies to articles on this page.

BRECK'S FLOWER FOOD.

A safe, clean, ordorless, concentrated plant food that is soluble in water, it promotes a healthy, vigorous growth of wood, leaf and flower.

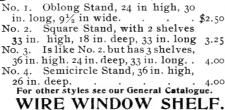

No. 1, sufficient for 30 plants for one year, 25 cts.; by mail, 40 cts.

No. 2, sufficient for 30 plants for 3 months, 15 cts.; by mail, 20 cts.

We furnish with each package a practical treatise of 32 pages, on the care of house plants. "Success with House Plants."

PLANT STANDS.

Wire, Rigid. These stands are most desirable, either for house use, or for conservatories.

No. 4.

With adjustable steel brackets. 36 inches

long, with brackets complete, \$1.00; each additional foot 35 cents.

GRASSES

There is no better season in which to renovate a lawn that is burned or wearing out than from the middle of August until the end of September. Rake out the dead roots, moss and useless surface covering. Sow Breck's Standard Lawn Grass at the rate of two bushels to the acre, rake lightly and roll well. The dew, and cool nights together with the warmth of the days soon starts growth and carries it to perfection before

Breck's Standard Lawn Grass.

One quart will sow 300 square feet.	Quart, \$0.25
One half peck will sow 1,200 square feet.	
One peck will sow 2,400 square feet. One bushel will sow 10,000 square feet.	Peck, 1.25 Bushel, 4.00

Boston Park Lawn Grass.

The same mixture of grasses and clovers as supplied by us to the City of Boston Park Commissioners for sowing on the Franklin and other Parks administered by them.

One pound will sow 650 square feet Price \$0.30 Sixteen pounds will sow half acre 4.00 " 15.00 Sixty-four pounds will sow one acre

Our Booklet "The Lawn, The Garden," tells you how to make and care for a lawn. Free upon applica-

We can supply other mixtures of so-called Lawn Grass Seed at competitive prices, but we recommend our own as being superior in every respect to all others. When desired we make special mixtures of Grasses to suit different soils and conditions.

Breck's "Shady Spot" Lawn Grass.

This is a mixture of grasses that are naturally adapted for growing under trees and in places where the sun does not find ready entrance. If sown on such locations, in place of the ordinary Lawn Seed, bare and unsightly spots will be prevented.

Quart \$0.25. Peck \$1.25. Bushel \$4.00.

Breck's Bank and Terrace Grass Mixture.

A mixture of deep-rooting grasses specially prepared for embankments and situations where it is impractical to get a successful catch of the less spreading rooted sorts. It produces a rich velvety turf throughout the season. No coarse growing undesirable varieties are used in this mixture Quart \$0.25. Peck \$1.25, Bushel \$4.00.

Golf.

In order that we might be the better able to serve our friends in making selection of grasses that will give best results on Golf Courses and Putting Greens under the many varied conditions of Soil, etc., that exist, our Mr. Archibald Smith last summer visited Prestwick, Bogside, St. Andrews, and other principal Golf Links in Scotland, and carefully ascertained particulars as to the kinds of grasses used for the different situations and purposes. The soil and effect of climate on these grasses, as compared with those prevailing in New England, have had due consideration, and we now offer under the name of the

Prestwick Golf Grasses,

A series of mixtures, modified as experience warrants for our needs, that we are sure surpass any hitherto offered in the United States.

No. 1. For Putting Greens, sow at the rate of 80 lbs. per acre. Per lb., 16 cents.
No. 2. For Courses, light and dry soils, sow at the rate of 50 lbs. per acre. Per lb., 14 cents.
No. 3. For Courses, low and damp soils, sow at the rate of 50 lbs. per acre. Per lb., 14 cents.
We will be glad to make special mixtures for other conditions of soil, etc.
Our general Catalogue has a valuable treatise on grasses and grass mixtures. The leading kinds of grasses are described in detail and sixteen formulas for different conditions are given. We mail it free upon application.

NURSERY DEPARTMENT.

We continue to give special attention to this important branch of our business. Our arrangements enable us to offer advantageously leading kinds of FRUIT, SHADE and ORNAMENTAL TREES, EVERGREEN and FLOWERING SHRUBS, HERBACEOUS PLANTS, Etc., of first-class quality at reasonable prices. Parties laying out new places, or wishing to re-arrange or improve their grounds can avail themselves of our experience and advice. We will be glad to send a competent person to examine the grounds and advise as to changes or laying out. to changes or laying out.

HERBACEOUS PLANTS, ORNAMENTAL SHADE AND FRUIT TREES, GRAPE VINES, CURRANTS and SMALL FRUIT of all kinds get a better start if planted out in the fall, and we recommend planting at this season.

SHADE AND ORNAMENTAL TREES.

Ash, American White (Fraxinus Alba). 10 ft., 75 cents; 12 ft., \$1.00.
Ash, Mountain (Sorbus Americana). 6 ft., 50 cents; 9 ft., \$1.00.

Beech, American (Fagus Fernginea). 5 ft., 50

cents; 7 ft., \$1.00.

Beech, River's Purple (F. Atropurpurea). 2 ft., \$1.00 ; 4 it., \$1.50

Birch, Cut Leaved, Weeping (Betula Pendula Laciniata). 5 to 6 ft., \$1.00; 8 to 10 ft., \$2.60.

Catalpa, Speciosa. 6 to 7 ft., 75 cents.

Chestnut, American (Castanea Americana). 4 tt., 50 cents; 7 ft., \$1.00.
Chestnut, Horse (Æsculus Hippocastrum). 5 ft., \$1.00; 6 ft., \$1.50.

Elm, American (Ulmus Americana). 10 ft., \$1.00;

12 ft., \$1.50. Laburnum, Golden (Cytisus). 4 ft., 50 cents; 5 ft., \$1.00.

Linden, American or Basswood (Tilia Americana).

Sft., 75 cents; 10 ft., \$1.00.

Taple, Cut Leaf Weeping (Acer Wierii Laciniatum). 8ft., \$1.00.

Taple, Norway (A. Plantanoides). 8 ft., \$1.00; 10

ft., \$1.25.

Maple, Sugar (A Saccharinum). 10 ft., \$1.00; 12 to 15 ft., \$1.50.

Magnolia, Acuminata (Cucumber M). 5 ft., \$1.00. Magnolia, Soulangeana. Nice specimens, \$1.50 to \$3.00.

Mulberry, Downing's Everbearing (Morus). 4 ft., \$1.00.
Oak, White (Quercus Alba). \$1.00 to \$2.00.
Poplar, Bolliana (Populus). Pyramidal growth. 8 ft., \$1.00; 10 ft., \$1.25.
Poplar, Lombardy (P. Fostigiata). 6 ft., 50 cents;

8 to 10 ft., 75 cents.

Willow, Great Weeping (Salix Babylonica). 6 ft, 50 cents; 8 ft., 75 cents

HEDGE PLANTS.

ROSES.

We name here twelve of the best Hardy sorts; description of these and over one hundred others will be found in our general catalogue. Jules Margottin.

Alfred Colomb. American Beauty. Baron de Maynard. Baroness Rothschild. Duke of Edinburgh, John Hopper.

La France. Mabel Morrison. Madame Victor Verdier. Paul Neron. Ulrich Brunner.

Fine strong plants, 50 cents each; \$4.00 per dozen.

FRUIT TREES.

APPLES. Name of Month designates time of ripening.

Apple, Astrachan, Red. Early, handsome, red, pleasant, acid; white flesh. Early August. Baldwin. A well-known sour winter apple. De-

cember to April.
Early Harvest. Yellow, tender, sub-acid. Bears

young. August. Gravenstein. Very large, sub-acid. September to

October. Greening, R. I. A superior cooking and eating.
Mild acid. Green. December to February.
Hubbardston Nonesuch. Large, dark red striped.

One of the best for eating and cooking. November to February.

Per tree one-half to one inch in diameter, five to six feet high, 35 cents, \$4.60 per dozen. One and one-half to two inches in diameter, seven to nine feet high, in bearing, \$1.00, \$10.00 per dozen.

PEACHES.

Crawford's Early. Very large, oval, pointed, yellow, with red cheek, very juicy, sub-acid, excel-lent, vigorous and productive. Ripening early in September.

Crawford's Late. wford's Late. Very large, yellow, with broad red cheek, rich, juicy, vinous, and deservedly the

most popular late kind. Ripening in October.

Mountain Rose. Large, roundish, free stone.

Tree hardy, vigorous, productive. Ripening in August

Per tree, 1 to 2 years, 4 to 6 ft., 25 cts.; extra large or older trees, 6 to 7 ft., 50 cts.

PEARS.

SUMMER SORTS.

Bartlett. Large and juicy. Late. Clapp. Productive. Large and juicy.

AUTUMN SORTS.

Beurre Hardy. October. Large green russet. Beurre Bosc. October. Large and very fine. Duchesse d'Angouleme. October. Very large. Seckel. September. Small, but fine quality.

WINTER SORTS.

Anjou. November to January. Large. High flavor. Dana's Hovey. November. Small. Rusty yellow. Nellis. January. Medium size. Extra quality. Vicar. December. Very large. Fine for cooking. 5 ft., 75 cents each. Larger trees, \$1.00 to \$3.00.

QUINCES.

Quince, Champion. Vigorous, upright grower, bearing young and abundantly; fruit larger than orange and best quality. Per tree, 75 cts. to \$1.00.

Meech's Prolific. A strong, vigorous grower, immensely productive, and of best quality. Per tree, 75 cts. to \$1.00.

Orange. One of the best. Per tree, 75 cts. to \$1.00.

RASPBERRIES.

Cuthbert. One of the very best, being hardy in winter. Fruit clear red, firm, and carries well to market

Golden Queen. A sport from Cuthbert.

Gregg. The largest and best late black cap; requires generous treatment to give fine fruit.

Hansell. The earliest of all Raspberries; hardy, of vigorous growth and productive. Fruit bright crimson, very firm. The above varieties, per dozen, \$1.00, hundred, \$5.00.

BLACKBERRIES.

Early Harvest. Extra early, and of fine flavor; hardy, vigorous and productive. Lucretia Dewberry. (New). A partially trailing blackberry, juicy and rich fruit. Per dozen, \$1.50; hundred, \$10.00.

Snyder. An entirely hardy and productive kind, of good quality.

Wachusett Thornless. Very fruitful. The above varieties, except where noted, per dozen, \$1.00; hundred, \$5.00.

Currant, Black Naples. Fine large fruit.
Cherry. Very large, with dark red berries, rather acid.
Fay's Prolific. A valuable variety, remarkably productive, with very long bunches of large, rich, red colored fruit. Two year plants, 25 cents; doz.

Versaillaise. Splendid, large red. The above varieties, except where noted, per dozen, \$1.00; hundred, \$5.00; thousand, \$30.00.

GOOSEBERRIES.

Smith's Improved. Large, light green, of fine quality. Per dozen, \$1.50. The Triumph. A new American seedling. Per

plant, 35 cents; dozen, \$3.00. Whinham's Industry. Per plant, 20 cents;

dozen, \$2.00.

GRAPE VINES. For the Open Ground.

Grape Vines, Brighton. Excellent quality; bunch large, berries red.

Concord. Acknowledged to be "the grape for the million."

Delaware. A small, but very delicious, red grape; very hardy.

Eaton, New Black. Hardy, vigorous, productive, healthy. Clusters weigh from ten to twenty-five ounces.

Per vine, two-year vines, \$1.00; one year, 50 cents.

Green Mountain. An extra early seedling from Vermont, remarkable for its health, vigor and productive-

ness; quality is unsurpassed.

Moore's Early. A large, early, and handsome grape. Has all the good points.

Niagara White. The vine is remarkably hardy; bunches very large. Ripens with the Concord. It is enormously productive.

The above Hardy Grapes are all strong, healthy, two-year vines. Per vine, 50 cents; one year, 35 cents;

except where noted.

POT GROWN STRAWBERRY PLANTS.

The earlier they are planted the larger the first season's crop will be. The plants may be set in beds of three rows, one foot apart, and one foot distant in the rows, with a space of about three feet between the outside rows of adjoining beds left for a pathway, or they may be planted in rows three feet apart and one foot apart in the rows.

Where the winters are severe, with little snow for protection, a light covering of leaves, or salt hay, or the branches of evergreens will be of great service. This covering should not be placed over the plants until the ground is frozen, say from the middle of November till the beginning of December. The covering should be removed in spring just as soon as the plants begin to grow.

The sorts marked (P) are pistillate, and will not fruit alone, but should be planted beside some staminate

perfect flowered variety.

Talbot (P.) Roundish conical form, bright red color, large and of delicious flavor, \$2.50 per 100.

Marshall. A worthy favorite, the fruit is very large, deep crimson color, and of extra quality and flavor.

Late. \$2.50 per 100.

Late. \$2.50 per 100.

Clyde. Large, roundish conical form, bright scarlet, good quality. Season medium, \$2.50 per 100.

Gladstone. Plants of vigorous growth and productive, fruit as large as Sharpless, quality very good. Early, \$2.50 per 100.

Belmont. A general favorite for market and home use. Large, dark crimson fruit. Late, \$2.50 per 100.

Nick Ohmer. Large, conical, dark red fruit of excellent flavor. Very suitable for winter forcing under glass. Season medium, \$2.50 per 100.

Rio. A large, crimson, productive sort, of good quality. Early, \$2.50 per 100.

Haverland (P.) A fine berry, color light red. Large, and of good quality, very productive. Early, \$2.50

per 100.

St. Joseph Everbearing. Bears abundantly throughout the season. The berries are of medium size, bright red color, and sweet aromatic flavor. \$2.50 per 100.

LAYER STRAWBERRY PLANTS.

Ready for shipment about the first of October. The plants we furnish are well rooted layers from the reground. The price for the foregoing sorts and Bubach No. 5 (P), Brandywine, Enormous (P), open ground. Gandy, Glen Mary, and Leader is \$.00 per 100.

Hardy Herbaceous Perennials.

These plants grow in beauty, size and value year by year. They require less care than most desirable flowering plants, and are adapted for nearly every condition. The months named indicate the time of flowering of each.

The prices attached are very low for strong plants, but we will furnish one plant of each of the 56 kinds named for \$8.00 net.

POULTRY SUPPLIES.

(Prices subject to change.)

All Poultry Supplies are specialties with us, and it is a fact, generally known, that we carry the most complete line of the Best Goods to be found anywhere in the United States. We, however, call especial attention to the following:

Breck's Poultry and Swine Meal. A meat, blood and bone preparation made from a German formula and originally introduced by us to the Poultry Keepers of the United States in 1892. It is the best animal matter food on the market today and is used and endorsed by thousands of poultry men from Maine to California. If you have not yet tried it you should do so at once. 100 lb. bag, \$2.25; 50 lb. bag, \$1.50; trial bag (a month's supply for 30 hens), \$1.00.

Breck's Cereal Chicken Feed. This is a combination of cracked and otherwise specially cut and prepared grains in the proportions that long experience in raising and feeding chicks for profit has shown to produce the best results. It is in itself a sufficient food to carry the chicks from the shell to maturity in the shortest possible time and with best results as to health, no matter whether the birds are wanted for broilers, roasters or early laying. It is used in large quantities by the most successful poultry men in the country, and is without doubt the best cereal preparation on the market. 50 lb. bag, \$1.40; 100 lb. bag, \$2.50. Net.

Breck's Alfalfa and White Clover and Clover Meal. Cut Clover and Clover Meal are so well known and generally used that we need not say a word regarding their value as part of the daily rations. Much of the material, however, sold under these names contains but a small percentage of clover, or consists of the clover stalks from which a crop of seed has been harvested and consequently is simply woody fibre and of little value for poultry. Knowing all this we have had grown especially for us several fields of Alfalfa, White and Red Clovers. These mixed in the right proportion form a clover ration in every way superior to others on the market. We exercise care to have the several crops cut at the proper stage of growth and under rather than overcured. We feel sure our many poultry keeper friends will appreciate the excellence of these clover mixtures and see when buying that spurious brands or inferior grades are not substituted for them. A reasonable trial only is necessary to demonstrate their superiority. When buying be sure to ask for and get only Breck's Alfalfa and White Clover Meal. Per 50 lb. bag, \$100; loo lb. bag, \$1.50. Net. Special price Breck's Alfalfa and White Clover and Clover Meal. Cut Clover and Clover Meal are so well Breck's Alfalfa and White Clover Meal. Per 50 lb. bag, \$1 00; 100 lb. bag, \$1.80. Net.

Breck's Eureka Egg Food. This preparation stands without a rival, as hundreds of those who have used it testify. It aids digestion, prevents and cures many diseases common to fowls, and although the best food known to produce eggs, it does not destroy the fertility of the egg. Sample box by mail on receipt of 25 cents. I lb. box, 25 cents each; if by mail, 40 cents each; 2½ lb. box, 50 cents each; by mail, \$1.00 each; 6 lb. box, \$1.00 each; 10 lb. box, \$1.50 each; 25 lb. kegs, \$3.50 each. These larger sizes can be sent cheaper by express than by mail.

Ground Oyster Shells. 100 lb. bags, 65 cts. per 100 lbs.; in bbls. of 250 lbs., 65 cts. per 100 lbs.

per ton upon application.

7. Fattening Duckling and Goose Food.
8. Laying Duck Food.
9. Stock Duck's Summer Food.

10. Growing Gosling Food.

1 bag, \$2.00; 5 bags, \$1.85 per bag. Net. Special price on large quantities.

Grenadier Meal. \$3.00 per bag. Special booklet free on application.

POULTRY SUPPLIES.—Continued.

Death to Lice. 15 oz. box, 25

beath to Lice. 15 02. 100., pkg., 50 cts., if by mail 40 cts., 3 lb. pkg., 50 cts., by mail \$1.00. 100 oz. pkg., \$1.00, if by mail, \$2.00.

Death to Lice, Special. A preparation containing all the qualities of the famous "Death to Lice Powder," but which is subthly in Korspan oil and the soluble in Kerosene oil and can be used to paint or spray roosts and interiors of poultry houses. 1 lb. box. 25 cts., if by mail, 40 cts.

Death to Lice Ointment. For use on young chicks. Per box, 10 and 25 cts.

"O. E. C." Lice Powder. An excellent article. It not only is death to all insects but acts as a powerful yet pleasant disinfectant. 25 and 50 cts. per box. Net

Orr's Liquid Lice Killer. This preparation possesses more points of real merit than any other liquid or paint lice destroyer before the public. It is of great strength and purity; it does its work by evaporating—the fumes killing all lice. It can be used in three different ways, thus making it suitable for varying conditions. Full directions for each method, also for using it upon chicks, will be found on each can. 1 qt., 35 cts.; ½ gal. 60 cts.; 1 gal., \$1.00; 5 gals., \$4.00. The fact that Mr. Cooper of the Prairie State Incubator Co. is interested in the manufacture of Orr's Lice Killer is a guarantee of value and usefulness.

Tobacco Dust. An exceedingly fine powder. Valuable as an insecticide. Per lb., 5 cts. Net. Tobacco Stems. Used to mix with nest material,

tunigating, etc. Per lb., 5 cts.; per bale, \$2.50. Met, sulpho-Napthol. This preparation, originated by the late Dr. Cabot, is recommended for a great many purposes. It cleans and heals all sorts of cuts, bruises and sores. It is sure death to all kinds of bacteria and insects and is unsurpassed as a disinfectant. For domestic animals, poultry and poultry houses it is the thing. 50 ct. bottle makes 10 gals.; \$1.00 can, 50 gals. solution. Net.

Oil of Tar. A new coal tar preparation, somewhat similar to Sulpho-Napthol. Per qt., 25 cts.; Per qt., 25 cts.; ½ gal., 5octs.: 1 gal., \$1.00. Net.

Veterinary X-Zalia. A purely vegetable preparation, contains no alcohol or poisonous ingredients. It may be applied to a raw surface or even poured into the eye of an animal without causing pain. It cures Galls, Scratches, and Surface Inflammation of every description. Per large bottle, \$1.25.

Plaster. Land. A valuable absorbent, when mixed with the droppings it deodorizes, also enhances their value as a ferilizer. Per 100 bag, 50 cts., per ton, \$8.00. Net.

Nest Eggs, China. Per doz., 40 cts. Net.

Medicol Nest Eggs. These are medicated eggs but entirely different from anything that has hitherto been offered. They can be cleaned without injury, are lasting, effective, and appreciated by chickens and adult fowls. No hen should be set without one of these in the nest as a preventitive of vermin. One placed in a bird cage keeps it sweet and the bird free from insects. They drive away lice from pot plants, prevent moths from attacking furs or other clothes when packed away, and are also valuable as a disinfectant. 10 cts. each; \$1.00 per doz.

Bellows, Spraying. \$1.25 to \$2.25.

Bellows, Houchin's Patent Powder. 50 cts., 75 cts., \$1.10 and \$1.50.

Brushes, White-wash. Tampico centre, bristles outside. Each, 7 in., 50 cts.; 8 in., 60 cts.; 9 in., 75 cts.

Nests, Wire. Strong and clean. Each, 50 cts.

Leg Bands. famous Phœnix. secure, neat, light and

superior to all others. Numbered to order. Per doz. 25 cts.; per 100, \$1.50.

Prairie State Incubators and Brooders.

JOSEPH BRECK & SONS (Corporation),

New England Agents.

The only machines made with which the amateur or professional can always be sure of success are the Genuine Prairie State Incubators and Brooders made at Homer City, Penn. Do not be deceived by the wordy advertisements of other makers, but investigate these machines thoroughly.

We guarantee their successful operation. For the coming season a large, beautiful catalogue containing many colored plates, up-to-date information, testimonials, etc., is now ready for distribution. If interested, send for this work. We will send it by mail,

postpaid.

IMPORTANT.

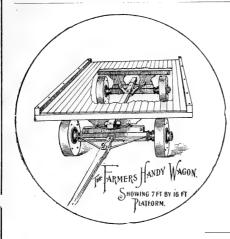

Before purchasing elsewhere write to us for circulars and prices of anything you may be in want of relating to the poultry business. We know we can please you as to prices and quality of the goods offered.

In addition to the articles shown in this catalogue we carry in stock the follow-

ing, viz.:

Green Bone Cutters, Wilson Grinding Mills,
Thayer Brooder-House Heaters, Shell and Corn Mills,
Clover Cutters, Caponizing Tools, Poultry Netting,

and many other articles which our space does not permit us to mention. Don't fail to write for information.

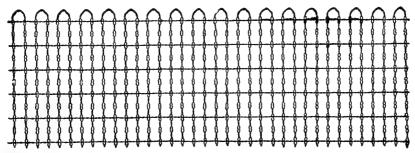

FARMER'S HANDY WAGON.

All thrifty farmers have for some time felt the necessity for a low-down, wide-tire, short-turning, broad-platform wagon for general use upon the farm This demand, until the first "Handy Wagon" was built, had never been met. This wagon has been on the market for eight years, and it has reached as high a state of perfection as ingenuity and the criticism of its many users can effect. The No. 9 Farmer's Handy Wagon is the latest, and we believe it to be the best general purpose two-horse farm truck made. It, in connection with our platform, combines all the advantages which are sought in a farm truck.

No. 9, Farmer's Handy Wagon, Our net price \$40.00 Platform Frame for No. 9, $6\frac{1}{2} \times 13$ ft. " " 10.00 No. 1B, one horse complete 50.00 Complete descriptive catalogue mailed on application Not included in our special offers.

UNION LAWN FENCE.

For Lawns, Division Fences, Churches, Cemeteries, etc., stronger, neater in appearance and less expensive than unsightly wood fence.

	Fence.

Close Mesh Fence.

Pickets 25 in. apart.	Picke	ets 13 in. apart.
24 in, high, 4 strands, per lineal foot 30 '' '' 5 '' '' '' '' '' 37 '' '' 6 '' '' '' '' '' 42 '' '' 7 '' '' '' '' '' 50 '' '' 8 '' '' '' ''	PRICE	PRICE

The pickets are made of two No. 12 galvanized steel wires, formed as shown in cut, with two twists between opening in the picket.

The cables are made of two No. 14 galvanized steel wires, spaced 6½ inches apart. These are twisted between the legs of the pickets which hold the flat side of the picket in the plane of the fence and at the same time prevent the cables from slipping on the picket.

The fence is very strong, fits uneven ground and will follow an incline as well as a level surface.

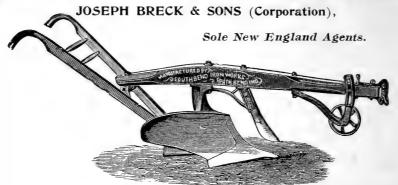

Standard Rolls, 300 feet. Special Lengths made to Order.

Also, Posts, Gates and Fittings for Union Lawn Fence, and several styles of Field, Farm and Park Fencing. Catalogues and estimates on application.

POULTRYMEN, ATTENTION!

A year ago we announced a new and up-to-date edition of our "Points for Poultry Raisers," which was so favorably received that we were obliged to print several editions before April 1st, 1902. We will publish this fall, a revised "Points for Poultry Raisers" which will contain new and valuable matter of great interest to all owners of Poultry. This work will be mailed on application.

The Oliver Side Hill Plow works equally as well on level land as on side hill, and contains all the latest improvements in side hill plows.

	Weight.	Plain.	Complete W. & J.
No. 52. Light One-Horse 57. Medium Two-Horse 56. Heavy "	100 lbs. 140 " 160 "	\$10.00 13.00 12.00	\$16.00 15.00

One extra share given with each plow.

Beware of imitation plows and extras, claiming to be the genuine Oliver or equally good. The genuine plows and repairs, direct from the factory, are for sale in New England only by us and our authorized agents. All others are spurious, and can not be relied upon to fit well or do good work.

FALL GOODS.

Our stock of Fall Goods, consisting of Ross Ensilage Cutters, Hay Cutters, Gasoline Engines, Horse Powers, Cider Mills, Wine Presses. Cob Mills, Potato Diggers, Root Cutters, Corn Shellers, Fan Mills, Farmers' Kettles, Etc., Etc., is very complete. Circulars, prices, etc., mailed on application.

CATALOGUE.

Our Illustrated Catalogue of Agricultural Hardware, Implements, Machines and Woodenware (second edition), size $8\frac{1}{2}$ x11 in., contains 384 pp. and 1500 illustrations, making it the most complete, up-to-date catalogue ever issued.

As this book is too large and valuable to send by mail, we can only send it free to our customers who order goods shipped them by express or freight. To others interested we will send it express prepaid on receipt of 25 cts., and this sum may be deducted from amount of the first purchase of Seed, Bulbs, Plants or Hardware.

SPECIAL OFFERS.

CARRIAGE PAID OR 10 PER CENT. DISCOUNT ALLOWED.

We make the following offers on all orders made up from our HOLLAND BULB AND PLANT CATALOGUE FOR 1902, at the net cash prices therein stated (except as noted), SENT US BY MAIL OR EXPRESS, ACCOMPANIED BY CASH.

OFFER No. 1.

We will send GOODS PREPAID by Mail, Express, or Freight, as we may deem advisable, TO ANY CITY OR TOWN IN NEW ENGLAND.

OFFER No. 2.

We DELIVER all Bulbs at single and dozen prices quoted in this catalogue, to any POST-OFFICE in the United States, except the few heavy Species which are marked "subject to special offer No. 3 only."

OFFER No. 3.

On all orders (except as noted) WHERE CUSTOMERS PAY TRANSPORTATION CHARGES THEMSELVES, we will allow A DISCOUNT OF TEN PER CENT.

PLEASE REMEMBER.

That orders sent in early SECURE THE FIRST SELECTIONS.

That our SPECIAL OFFERS are POSITIVELY LIMIT-ED to ORDERS BY MAIL or EXPRESS ACCOMPANIED BY CASH, postal note, draft on New York or Boston, stamps, express or post-office money order.

That "Special offers Nos. 2 and 3" are especially advantageous to PARTIES LIVING OUTSIDE of New England; when goods are not mailable, in a majority of cases the 10 per cent. discount will offset transportation charges.

PLEASE NOTE.

We offer such extraordinary inducements for orders sent us by mail or express, accompanied by cash, because we can execute them in the quiet of our mail order department with promptness, dispatch, and with goods of the highest excellence, and increase the volume of our business without impairing the efficiency of its service.

OUR 1903 General Catalogue will be published early in January. A copy will be mailed free to all applicants, and to customers of this year without ordering it. Infort Procher fort
